

The section is into full swing now, having completed pre-season and all teams are well on the way to league and cup fixtures being played. Having made the decision to disband the Sunday 1st team, we have made some very good additions to the club via long term private lets. The section has continued to make excellent progress on its grant claim applications with the FA and football foundation. As a result of this we have secured the following grants, which benefit the entire club.

- Pitch investment fund: £6,400 per year for a 6-year term (£38,400)
- Perimeter fencing fund: £12,000
- Replacement goal fund: £2,000
- Barclays community sport fund £500

So, as a total the section has managed to create over £50,000 of additional funding for the improvement of our facilities. Investment work has already begun, with a more structured approach to improving our facilities with the support of our grounds team.

Saturday Vets

The team continue to be in division 2 Southern Veterans league and have had a positive start to the season. They are currently recruiting new players to join after releasing some players at the beginning of this season.

Sunday Vets

Having lost several players to a local side, they have been working hard to introduce new members to the club to join the team. They continue to play friendlies in the local area.

Catford Wanderers Academy

Their fixtures have begun and added to the overall fixture matrix. They continue to use the club facilities as normal.

Guest teams

Sanco (Sunday's)

Games have been scheduled within our fixture matrix. Having spoken with the management team, they are very happy at our club and are keen to remain for the long term.

FC Elmstead (Sunday's)

They are a men's adult side, playing in the local Bromley & Orpington league. Having met with their management team, they have committed to the use of the ground for this season. They are very pleased with the set up and conditions.

Lewisham Tigers (Sunday's)

They are a well-established local youth (U15) side. Much like the other private lets, they are very happy with the set-up, having moved in from playing park football. They are also committed for the season.

College exhibition games (Mid-week)

Jarrad & Keith (who run the academy teams) have requested the hire for Friday's around once a month for a local academy exhibition match. This has already begun, with the first game being in early October.
